WiseSaver Mobile Application:

Wise Saver is an Android application designed to help users manage their personal finances by logging, tracking, and visualising expenses. With an intuitive interface and gamification elements, Wise Saver makes expense tracking both engaging and rewarding.

Features:

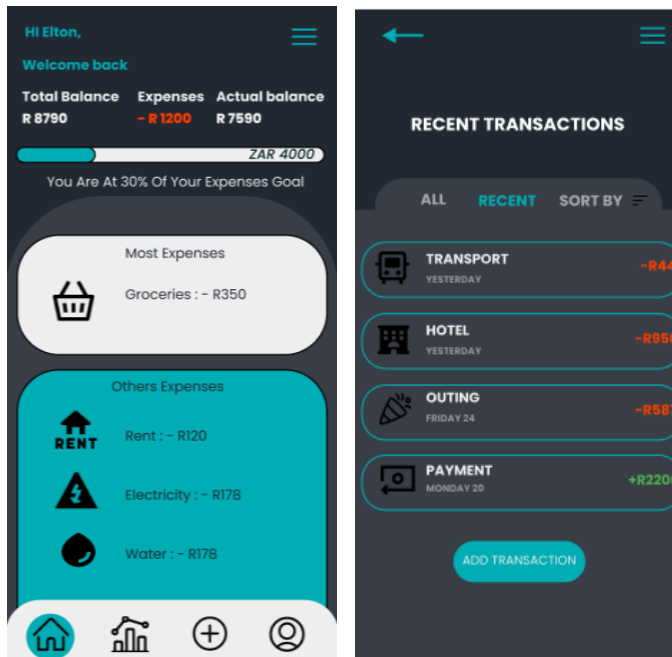

User Registration and Login:

- Securely create an account and log in.

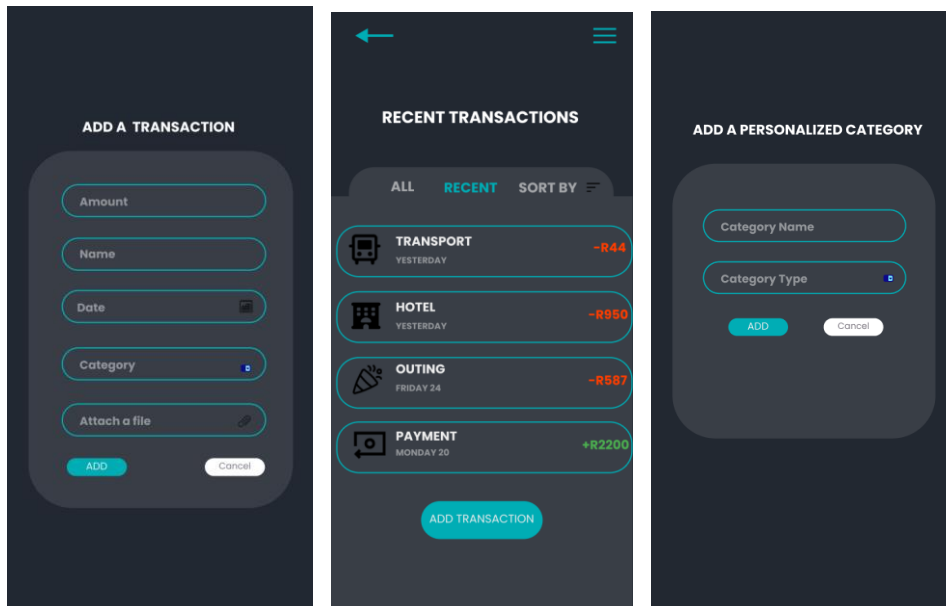

Expense Categories:

- Create and manage categories for expenses (e.g., Groceries, Entertainment, Transport)

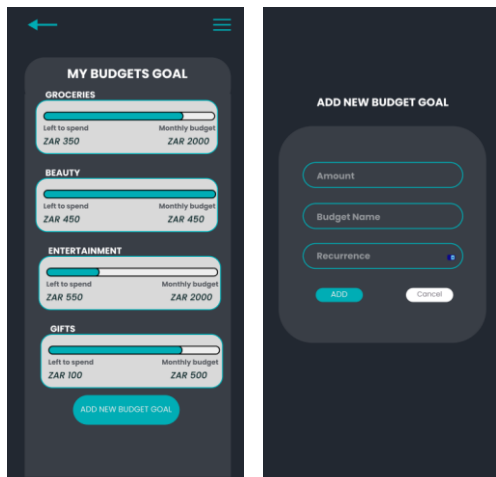

Expense Entry:

- Log detailed expense entries, including amount, date, description, and category.

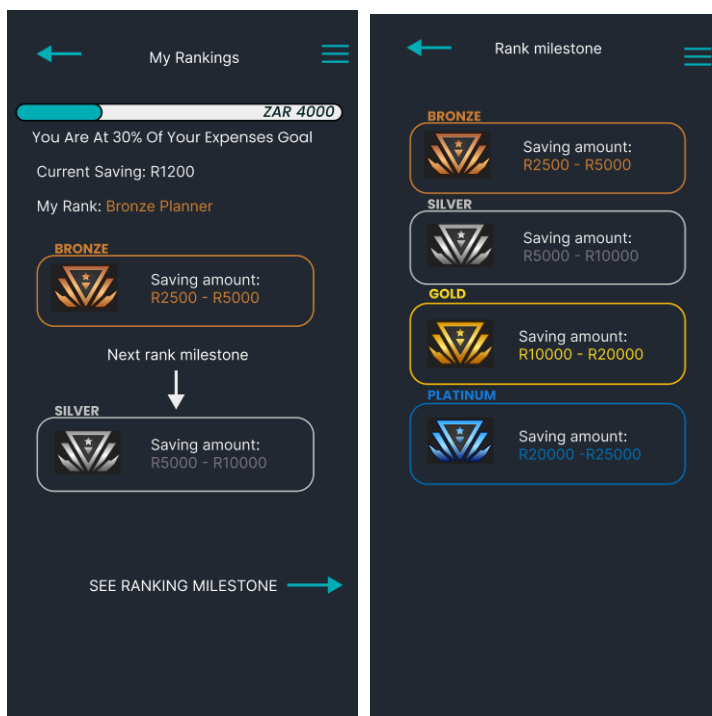

Monthly Budget Goals:

- Set a monthly total budget goal.
- Set specific budget limits for individual categories.

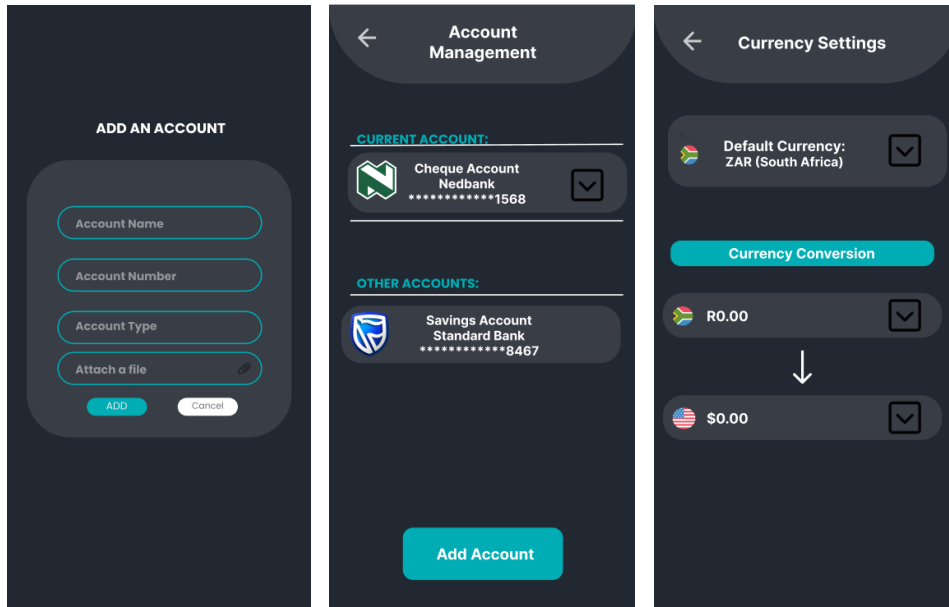

My Ranking :

- Get ranked according to your saving ranking levels (Bronze, Silver, Gold, and Platinum).

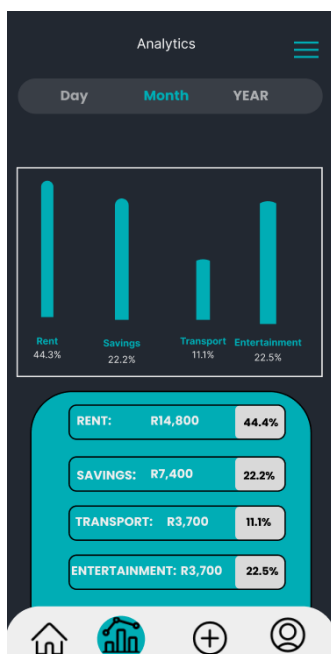

Accounts and Currency Screen

- Link your bank account to your WiseSave App and have the option to calculate your currency exchange

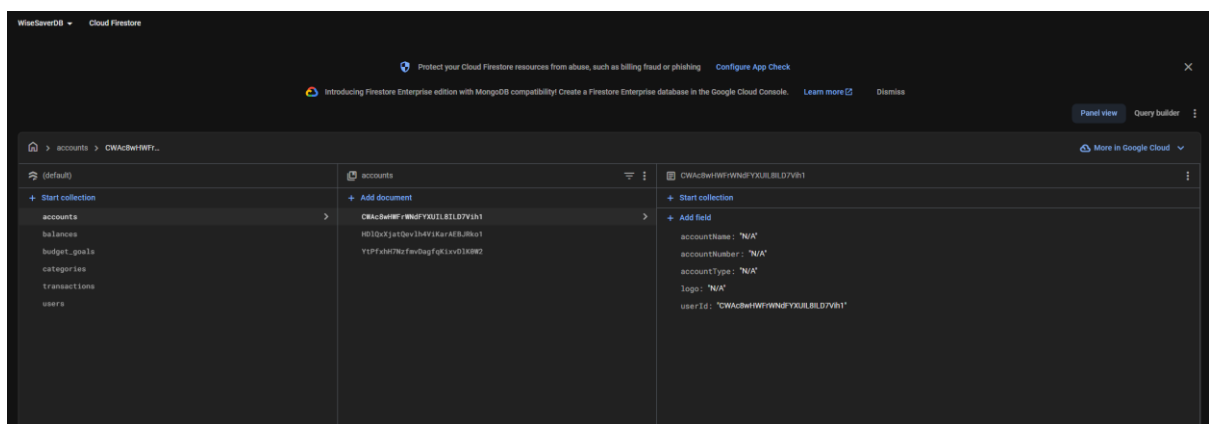

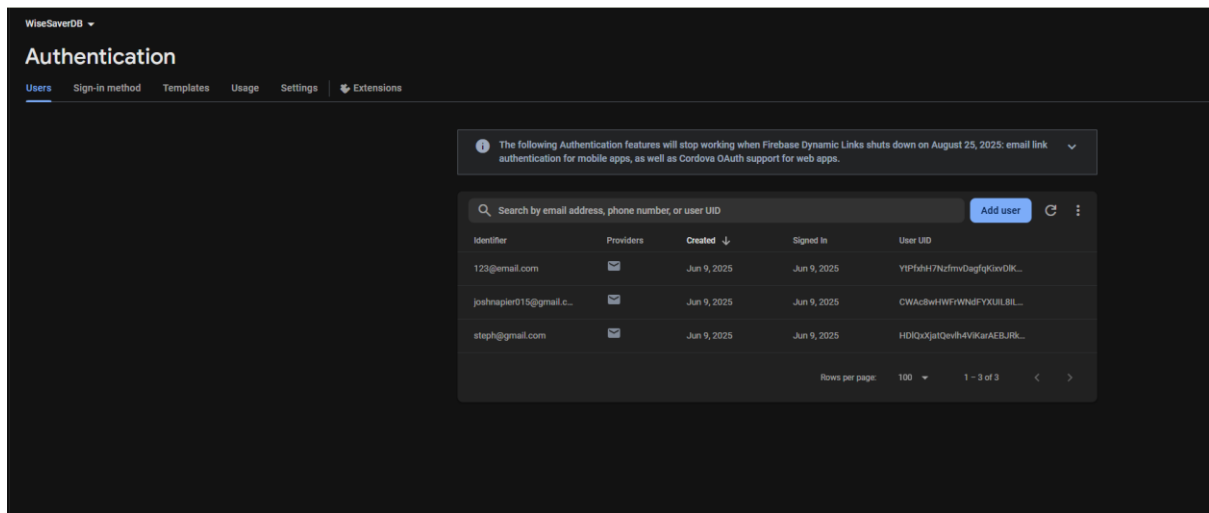

Graphical Insights:

- View a graph showing daily spending over a selected period.

Firebase Database:

- All data that is collected with in the WiseSave App is stored within a firebase Database.

Tech Stack:

- **Kotlin** – Main programming language.
- **Kotlin** – Main programming language.
- **Firebase Firestore** – Backend for online data storage
- **Material Design** – UI and UX.
